12 March 2020

Dear patient:

In these uncertain times, I wanted to reach out to you to inform you of our efforts in ensuring your safety in our practice. As the situation around novel coronavirus (COVID-19) continues to evolve, we are doing everything we can to ensure your safety and provide maximum schedule flexibility for your access to the practice.

We take great pride in maintaining the highest standards of cleanliness and hygiene in our office. In response to the coronavirus, we have taken additional measures developed based on guidelines provided by the local, state and federal public health authorities (including the CDC) to make our hygiene protocols even more rigorous:

For patients receiving allergy shots on Tuesday or Wednesday, we are happy to accommodate you at different days and times, if you are willing to call ahead.

For all Island ENT established patients, we are extending phone visits/consultations to accommodate those that would rather not come into the office, for the next few weeks. We are also happy to renew your prescriptions, as all pharmacies allow for early refills during these unsettled times.

We are only a phone call away!

In good health!

Ioana Carabin, MD
